

## **E-SMART wins the 2019 Supplier of the Year Award for Sustainability from Coke Canada Bottling**

---

Montreal, CANADA – August 2020

It is with great honor that E-SMART accepted the **Sustainability Award** at the **Coke Canada Bottling 2019 Supplier of the Year Awards** held virtually this past June 2020. The category acknowledges supplier partnerships based on key performance indicators in areas such as Environmental Sustainability, Innovation and Cost Savings.

Coca-Cola Canada Bottling Limited is the bottler and distributor of Coca-Cola products across Canada, with operations in every province.

E-SMART and Coke Canada Bottling began their partnership in late 2018 with the goal of innovating current operations. The first E-SMART pilot was launched shortly after in February 2019. Baseline fuel savings were recorded on the test units, prompting Coke Canada Bottling to subsequently equip a portion of their Canada-wide fleet with the E-SMART system.

E-SMART and Coca-Cola Canada Bottling Limited remain committed to working together towards reducing fuel consumption and carbon footprint.

### **About E-SMART**

E-SMART is a Montreal-based technology company. The E-SMART mission is to bring Intelligent Speed Adaptation software to transportation. E-SMART is positioned as an industry leader in the innovation and adoption of road safety technology, equipping fleets across North America.

Through active speed management, the E-SMART system significantly improves fleet safety and operational efficiency. E-SMART reduces accident occurrence, optimizes fuel consumption, and reduces carbon footprint accordingly.
